

## Coupe du Monde de la Patisserie World Pastry Cup 2009

**B**ravo Trittico Executive, the multi-functional machine for international pastry and gelato is a proud sponsor of Coupe du Monde de la Patisserie World Pastry Cup 2009 and a Gold sponsor of Team USA, 2009. The Bravo Trittico Executive was used in each team's booth over the two day competition, where 22 countries competed for the title of winner of the World Pastry Cup 2009.

Bravo, founded in 1967 by Genesio Bravo, created and patented in 1974 the first combined multifunctional machine for gelato. Now, after almost 40 years of experience, research and development, the ultimate model, the Trittico Executive, represents an entire workshop concentrated in less than one squared meter. The Executive is used for the production of an entire array of international pastry ingredients in addition to artisanal gelato and sorbetto. Butter cream, pate a bombe, chocolate tempering, sauces, mousses, custard, bavarian cream, fruit jelly, marmalades and jams, ganache cream, gelato, and sorbetto are just some of the products the Executive can produce.

"Twenty years spent taking pastry-making to the highest level and spotlighting a dynamic profession and the creativity and passion driving young pastry chefs across the globe. Thanks to the support and loyalty of our sponsors, together we can be proud to have developed this fantastic event for the benefit of a profession that is constantly

striving to innovate. This unique meeting of cultures, experiences and expertise has enabled all those involved to surpass themselves and reach new heights.

We would like to take this opportunity to thank you all for the magical, exciting moments that we have shared. This 20th anniversary will provide an opportunity for promoting modern, avant-garde pastry making on an even wider international scale.

Gabriel PAILLASSON  
Best Craftsman of France  
Founding President of the World Pastry Cup
